

Docket No.: 503.38097CX1

REMARKS

Reconsideration and allowance of the above-identified application, in consideration of the earlier submitted responsive Amendment, dated August 9, 2005, and as supplemented herein, is respectfully requested.

By the above-made amendments, the previously submitted new claim 3 has been re-presented as five (5) separate dependent claims, each being dependent on base claim 1. That is, applicants have decided to re-submit the five (5) "wherein" clauses contained in claim 3 as separate claim entities since applicants consider the schemed invention according to base claim 1 and as further limited by each of the respective "wherein" clauses of previously submitted new claim 3 to be separately patentable.

For the same and similar as that presented in the Remarks of the responsive Amendment of August 9, 2005, reconsideration and withdrawal of the previously outstanding rejection as well as favorable action on the currently pending claims, i.e., claims 1, 2 and 4-8, together with early allowance of the above-identified application is respectfully requested.

To the extent necessary, Applicants petition for an extension of time under 37 CFR 1.136. Please charge any shortage in fees due in connection with the filing of this paper, including extension of time fees, to the Antonelli, Terry, Stout & Kraus, LLP Deposit Account No. 01-2135 (Docket No. 503.38097CX1), and please credit
